## Tentex™ Acrylic Sports Court Coating

### Sporting a Touch of Class

Ideal for tennis courts, athletic tracks, netball courts and other multipurpose sports surface, Tentex Acrylic Sports Court Coating is 100% premium acrylic all-weather surfaces be it for indoor or outdoor application.

These technologically advanced, acrylic, water-based products are widely appreciated as the benchmark for high quality sports floor coatings, which the surface texture can also be controlled by using various amounts of fine graded sand.

A coating system is only as good as its preparation and in the Tentex system there is a full series of preparation compounds to ensure that the surface is correctly prepared.

Whether rejuvenating an existing court or creating a new one from the ground up, at Tentex, we will always provide you with the best products at the best value.

Tentex™ Anti-Slip Epoxy

## In Safe Hands

When safety needs to come first, choose Tentex Non-Slip Epoxy – a premier floor coating technology which is specially designed to prevent slip hazards from ever becoming a reality.

Developed as an industrial and commercial epoxy floor coating, Tentex Non-Slip Epoxy floor coating system is highly regarded by consumers for its unusual combination of ease of application and high level of durability.

It also features the state-of-the-art technology which allows the coating to breath, eliminating blisters which lead to cracking or peeling.

Tentex Non-Slip Epoxy is a reliable technology due to its excellent qualities in order to meet today's floor stringent demand and which it is also formulated to provide a tough protective coating against chemical penetration, making it ideal for floor areas with abrasive traffic.

Having wide varieties of colour to choose from, Tentex Non-Slip Epoxy high-tech formula produces a nontoxic finish without polluting the environment or endangering your health while enabling the creative side of you to add your own personal touches.

# Industrial Flooring

Tentex™ Self-Leveling Epoxy

## Herculean Durability That Holds Tons

Imagine the ability to hold up Titan without scuffing the floor, Tentex Self-Leveling Epoxy consists of 100% epoxy and selectively graded aggregates to produce a seamless flooring solution ideally suited for heavy-duty industrial flooring applications.

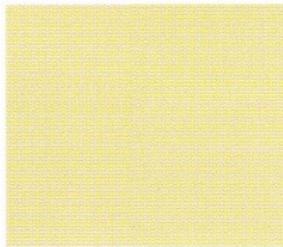

Its extreme durability and hard wearing flooring offers a number of benefits which include:-

- High scratch and impact resistance
- Chemical and heat resistance
- Slip resistant
- High gloss with appealing finish
- Attractive bright colour options
- Variable thickness for versatile application

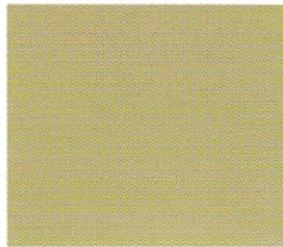

As such, this range is highly used in numerous pharmaceutical units, operation theatres and food factories. Our premium quality, easy to clean self leveling epoxy flooring is also extensively used in heavy manufacturing units and many more.

**Your Decorative Concrete Applicator****PRECAUTIONS AND LIMITATIONS**

The aggregates and other raw materials used to make our decorative concrete are products by nature and therefore are subject to variation in colour, size and shape. The photos in the brochure are for illustration purpose only, and variations in colour and shading may also occur depending on the job conditions, chosen texture and finishing practices employed by your contractor. Tentex is a decorative product and is not intended for purely structural applications. It is not a repair material and all necessary works (including epoxy, crack fill with limitations) should be carried out by a professional in a suitable manner before applications. It is advised to confirm your required colour and texture with your contractor before proceeding with the application works. Colours may vary due to the variation in formula and application techniques. The printed colors shown in this brochure may vary not fully represent the applied case due to vary printer characteristics.
